Summary

Product designer with a love for beautiful, well-crafted work. I help shape industry-leading digital products through visual direction, information architecture, and the design systems that bring them together.

Experience

Neo Financial

Staff Product Designer & Design Systems Jul 2025 – Sep 2026

- **Design System Unification:** Led design system improvements, documentation, and planning to unify marketing and product libraries, helping teams work from shared components, patterns, and decisions.
- **Engineering Partnership:** Partnered with engineers to prioritize React Native component migration and review design fidelity; initiated Figma Code Connect mapping for future AI-assisted workflows.
- **Neo App Rebrand:** Led app rebrand design across the home screen, marketing patterns, iconography, and visual assets.

Staff Product Designer May 2024 – Jul 2025

- **Neo Accounts Redesign:** Led account experience redesigns across credit, savings, and chequing, establishing consistent information hierarchy and a modern visual direction with design and product leadership.
- **Credit Card Payment Feature:** Designed an in-app credit card statement and payment summary to address customer confusion, making balances, payments, and remaining amounts owed easier to find.

- **App Architecture & Team Workflows:** Led information architecture work across home, profile, and money movement actions; documented terminology and extensible patterns, and helped establish shared Figma file standards.

Senior Product Designer Dec 2021 – Apr 2024

- **GIC Account Experience:** Led research and partnered with another designer to develop a GIC account experience across mobile and web in three months, covering onboarding, funding, and term selection; product remained unreleased.
- **Credit Card Upgrade Experience:** Designed the end-to-end Card Swap experience, guiding existing customers through selecting and upgrading to a higher-tier card.

Product Designer Dec 2020 – Dec 2021

- **Investment Product:** Helped design and launch Neo's investment product from scratch with a senior designer, product manager, and external provider, covering account, portfolio, and holdings experiences.
- **Automatic Card Payment Feature:** Designed the end-to-end credit card Autopay experience, enabling customers to set up automatic credit card payments.

SkipTheDishes

UX/UI Designer Jun 2018 – Dec 2020

- **Restaurant App Research & Design:** Conducted on-site restaurant research with a product owner and refined the restaurant app's interface and design system around operational needs.
- **Self-serve Onboarding:** Created and maintained multilingual interactive onboarding tutorials in InVision, designed to help restaurant owners learn independently and reduce support calls.
